

School Vision

“You don’t need eyes to see you need vision”

With continued improvements in the school, we feel it is time we updated the school vision to reflect our ambitions.

Three visions have been created by canvassing the thoughts of Staff, Pupils, Governors and the wider community of parents/carers. You can see some of the many wonderful ideas we received in the thought clouds below.

The updated Vision will represent the school's ethos - what we do and why. Through our behaviours and practices the vision will be something to stand by and be proud of, clarifying for everyone where the school is, and where it is going - a guiding light to map the course for the school.

We encourage you to discuss these with your children, pick your favourite, then vote. Whichever gets the most votes wins, simple!

Now it is time to vote!

Vision 1

We believe a happy child is a successful child! Learning should be vivid, real, and a joy in itself. We aim to create a safe, positive, and stimulating environment for all children, and see emotional well-being as the beating heart of our school.

We are driven by the goal of nurturing our children's natural curiosity so it grows into a passion for learning that lasts a lifetime.

We truly believe that by encouraging responsible, ethical, creative and compassionate children, we can give every child the ambition to DREAM, BELIEVE, and ACHIEVE.

Vision 2

We are passionately driven to ensure all our pupils are engaged in great learning both in the classroom and beyond. We believe a safe environment where all children feel included, valued, and secure, is key to unlocking their imagination and potential.

Academic, charitable, sporting and adventurous engagements, should inspire all our children to excellence through the joy of learning.

With a supportive community we actively nurture and encourage a sense of social responsibility to give every child the best possible start in becoming creative and compassionate members of society.

Vision 3

Nurturing a sense of adventure and joy in learning can help our children achieve more than they ever thought possible. By providing a safe and inclusive environment with passionate role models, we aim to unlock our children's imagination and ignite a lifelong curiosity to learn.

We continually strive to remove the barriers to success through our core values of Respect, Kindness, Honesty, Collaboration and Excellence.

We truly believe that by encouraging responsible, ethical, creative and compassionate children, we can give every child the ambition to DREAM, BELIEVE, and ACHIEVE.
